Members Reopen Conference  
Later But Fail to Reach  
Agreement on Repeal  
Party Lines Gone in Dispute;  
Compromise Predicted  
by Senator Smoot

(BY A. P. NIGHT WIRE)  
WASHINGTON, Feb. 18.—The  
dispute between the House and  
Senate revenue bill conferees over  
the proposed repeal of the inher-  
itance tax reached such a stage to-  
day that at one time members of  
the House walked out of the con-  
ference.  
Senate conferees flatly declared  
they will insist upon repeal of the  
tax, and the spokesmen of the  
House took an equally determined  
position, insisting upon restoration  
of this tax to the measure as ap-  
proved by the House. An impasse  
developed and House members an-  
nounced they would retire until the  
Senate was ready to yield.  
SOME LEAVE ROOM  
Some of the House conferees left  
the room and the others refused  
to discuss the matter further. At  
the end of forty-five minutes, how-  
ever, the conference was reopened  
and all members left tonight smil-  
ing, although no agreement had  
been reached on the inheritance  
tax.  
The new fight is the culmination  
of many spirited disputes which have  
marked the conference and was one  
of the few times in recent legis-  
lative history that the Senate and House  
without party lines.  
MAY WIN POINT  
The three Republican and two  
Democratic members of the Senate  
group all have voted for repeal of  
the inheritance tax when it was up  
for decision in the Senate. While  
the House had voted to modify  
considerably the present inheri-  
tance rates it has never voted for  
repeal of this tax and its representa-  
tives in the conference insisted  
against such action.  
The conferees of the House manag-  
ers to the conference was taken  
generally tonight to indicate they  
will not yield their fight for restor-  
ation of the law to the bill. The  
conference is expected to act on this  
as well as the other rate  
schedule tomorrow.

WASHINGTON, Feb. 18.—Presi-

two days has been suffering from  
a cold, felt no better today and  
again canceled his business en-  
gagements.  
No alarm is felt for the Presi-

illness serious. The President is  
said to have no temperature, but  
it was thought best to keep him  
in his room today and it was not  
until after 9 o'clock that he decided  
to keep his engagements. Then  
he went back to bed.  
President Coolidge after remain-

of yesterday, went to his office  
about 4 o'clock in the afternoon  
and spent more than an hour dis-  
posing of an accumulation of im-  
portant matters.

Catastrophe**

(BY A. P. NIGHT WIRE)  
BINGHAM (Utah), Feb. 18.—  
The last of the bodies in the snow-  
slide district of yesterday morning  
in which thirty-eight are known to  
be dead, will not be uncovered until  
spring. This is the opinion of  
officials here after thirty hours of  
digging and only a meager portion  
of the devastated area combed by  
the hundreds of miners who are  
engaged in the tedious, heart-  
breaking task.  
Four bodies were recovered to-  
day, raising the total number of  
known dead to thirty-eight. Of  
the twelve injured persons who  
were taken from the snow prison  
Wednesday afternoon and even-  
ing, all will survive according to  
physicians at the Bingham General  
Hospital.

**HOPE ABANDONED**  
Every hope of taking any more  
bodies from the snow-filled gulch  
has been abandoned by the rescue  
leaders. It is pointed out that the  
entombed would have frozen to  
death before they could be reached.  
While the miners go on about  
their colossal task in their stoical  
manner, guards are patrolling the  
ridges surrounding the district.  
The sentries are walking their  
posts to fire the warning in the  
event of any snow movement.  
Three valleys will be fired if the  
slightest movement is observed.  
The officials say the great amount  
of snow on the mountains could  
easily precipitate another disaster,  
as serious as Wednesday's catas-  
trophe. As Wednesday's disaster  
would endanger the hundreds of  
miners now digging out the cor-  
porate.

**RED CROSS CORPS SENT**  
Beginning at the bottom of the  
gulch, the debris is being moved a  
short while at a time. Splintered  
boards—the remains of what were  
once the homes of a score of fam-  
ilies—and other perishable debris  
are being destroyed in a bonfire  
nearby because of its inflammable  
nature. They were merely at-  
tempting to discredit it, he main-  
tained.  
Some of Martinez's close asso-  
ciates are reported to have fled  
from San Antonio several days ago.  
Martinez has been employed as  
an editorial writer on a Spanish  
language daily newspaper here.

(BY A. P. NIGHT WIRE)  
NEW YORK, Feb. 18.—Oliver Morosco, theatrical and motion-  
picture producer, filed a voluntary petition in bankruptcy in the Fed-  
eral court today. He listed his liabilities at \$1,033,000 and assets at  
\$120,000.  
Morosco, whose fortune at one  
time was estimated at about  
\$5,000,000, lost his wealth in the  
failure of the Morosco Holding  
Company, which went into bank-  
ruptcy in 1923.  
The Federal receiver exonerated  
him of any responsibility for the  
failure of the company, saying he  
had been the victim of fraudulent  
activities of men promoting "Mor-  
osco Town," a dream village at  
Los Angeles.  
It was found that without his  
knowledge, the promoters had paid  
about \$240,000 in dividends, which  
did not accrue from profit in or-  
der to promote the sale of stock.  
Seven of the promoters were

are being expelled from Mexico  
because they are American was  
made today in the House by Rep-  
resentative Boylan, Democrat,  
New York.  
He said he will ask early con-

upon the State Department to

expulsions.  
Informal inquiries as to the sit-  
uation have been made of the

But so far no protest has been

**Invention Permits Use of One Wave Length by Two  
or More Transmitters Without Conflict**

(BY A. P. NIGHT WIRE)  
CHICAGO, Feb. 18.—Possibility of the simultaneous use by two  
or more radio transmitters of identical wave lengths was seen by en-  
gineers today with the announcement of an invention of L. William  
Skala, youthful graduate of the engineering school of the University  
of Prague. Based upon what was said to be heretofore unknown  
wave-length fundamentals, the device performed without a hitch in  
Skala's laboratory at Berwyn, a suburb.  
Engineers attached to radio-casts of a dial on the auxiliary box at-  
tached to the receiver cut out one  
transmitter and brought in the  
other without interference.  
Skala, in brief explanation of his  
invention, said that no changes in  
the basic circuit of present-day  
apparatus are necessary. He said  
that the outfit consists of a simple  
combination of capacity and in-  
ductance that functions through  
properties of the wireless wave  
other than amplitude and harmo-  
nics. It was mechanically worked  
out after he had perfected a  
mathematical formula. He declined  
to go into details other than to say  
that the number of portions into  
which frequency or wave length  
can be split to accommodate trans-  
mitters is a very infinite number.  
It was further declared that uni-  
versal use of the apparatus would  
solve the receiver's tuning prob-  
lem that has become the worry of  
practically every radio listener  
with the numerous radio-casts now  
on the air.  
A later test under actual opera-  
ting conditions is being planned.

### WHITTIER IS SCENE OF CHAMPIONSHIP CLASH

Quakers Need but One of Two-Game Series to Annex Honors; Rival Teams Evenly Matched

**SOMEWHERE** we have heard the expression voiced that history repeats itself. After following local athletic events for some years we are prepared to lend our unqualified support to the viewpoint—if any support is desired or needed. This evening Whittier will be the scene of a basketball clash between the home-town stars and the local University of California tossers. The Southern California Conference title is at stake, a second game tomorrow evening at the Olympic Auditorium closing a rather strenuous week for both squads.

**LAST YEAR** the two teams met for the championship and the season before that the same situation existed. Thus it will be seen that the Grizzlies and Poets fall into the class of traditional enemies. And if history repeats itself to-night and tomorrow night there'll be a lot of joy in Whittier Sunday for in days gone by the Poets have seemed to possess the number of their rivals.

**ON THE BASIS** of the season's play there is little to choose between the two teams. At this moment they stand thusly:

Team	W	L	Pct
Grizzlies	10	5	.667
Poets	9	6	.600

If they split even in the two games Whittier will thus win the title as tomorrow night's tilt closes the season for both squads. The Poets will have a percentage of .667, while the Grizzlies would wind up with .667. Thus the locals are faced with the task of coping both contests in order to retain the title they captured last year.

**DEFENSIVELY** and offensively the rival teams are evenly matched. Much depends on Ed Prigge, Grizzly center, to-night. It seems that when Prigge plays well his mates do likewise. When he's off the entire team seems to suffer.

**JACK KETCHUM**, forward, and Jimmy Armstrong, guard, were not in this Grizzly line-up when the Poets were encountered last year. Capt. Horace Brees, Bill Goertz and Prigge all played, while Woodward and Willbur Johns handled the forward berths, the first two named being used as guards. Ketchum has taken one of the forward jobs while Goertz, who was shifted to guard in the Whittier games last year, to replace Armstrong, who was temporarily out. Has gone back to his forward task. To our way of thinking the Grizzlies are stronger than last year. Their main difficulty at this time seems to be a tendency to go stale.

**WHITTIER** will present much the same team as last year, although Rose Hanson and Ray Johns will be missing. Eckles and Sucksdorff handle the forwards, with Don Williams at center. Williams has been the big noise of the Poets this season, and much depends on him tonight and tomorrow night. Eckles is a snail shot, Sucksdorff is a new man this season.

**CLIM REECE** is playing guard again while Johns's place has been taken by Ed Prigge, Grizzly center, to-night. It seems that when Prigge plays well his mates do likewise. When he's off the entire team seems to suffer.

Ex-Paper Hustler Favorite to Have Hand Raised

Strong, Dundee Opponents in Semi-Final

When Young Nationalista and Newsboy Brown get through milling at the Hollywood American Legion stadium tonight, the gathering of fans who usually pack the stadium will undoubtedly write in their opinions that they have witnessed a great battle.

If past performances count for anything, this shot can't miss. Tom Gallery sized up the boys on the night of the boxing match.

Newsboy Brown has been named as Fido's greatest rival. This is some boxer.

Brown, when it is considered that Fido beat Frankie Genaro for the title, and Genaro is a very worthy opponent and highly regarded by the New York Boxing Commission.

The fight tonight can't help but be a battle worth seeing. Brown and Nationalista swing from the far corners of the ring and when they land something must give, and it will be the props of the guy who gets knocked on the bottom.

Neither of the main events are of the clever type. They rely mostly on their punching power. Brown has more style than Nationalista, who is just a plain swinger. The fighters have posted \$350 to make 116 pounds at 8 o'clock today, but neither should have trouble in doing so.

The semi-final also should result in a good battle, with Everett Strong meeting Dick Dundee over the six-round bout. Strong is one of the most popular boys to break into the local ranks for some time, and several believe he will win by a knockout tonight. A win for Strong will put him in the main-event class.

The card follows:  
Newsboy Brown vs. Young Nationalista, ten rounds, 116 pounds, 8 o'clock.  
Dick Dundee vs. Everett Strong, six rounds, 125 pounds, 8 o'clock.  
Tom Gallery vs. Frankie Genaro, ten rounds, 125 pounds, 8 o'clock.  
Fido vs. Newsboy Brown, ten rounds, 116 pounds, 8 o'clock.

## PIPAL PICKS TIGER TEAM

Occidental Cinder Stars Hope to Surprise Trojan Track Squad in Coliseum Meet Tomorrow

Coach Joe Pipal sent his track-and-field candidates through their final practice of the week yesterday in preparation for their opening meet of the season against the strong Southern California squad at the Coliseum tomorrow.

As a result of the strenuous training period, the Oxy mentor has been able to pick his performers for the Trojan contest, which, though doped to lose by an overwhelming score, should put up a game fight against their opponents.

In the century Coach Pipal will enter Milton and Bud Nash, Parker and Brodhead, and probably the same quartet in the 220. The 440, which appears to be one of the best races of the season, will find Capt. Montgomery, Carlisle Bailey, Joe Donley and either Milt Nash or Parker competing for the Tigers.

Herbert Moray, Eugene Chaffee, Berie Goodheart and Hugh Scott will compete in the half-mile, and Soovel, Miller, Miles and G. Newell. In the two-mile event Coach Pipal will enter Lavelle, P. Newell and MacIntosh.

U.S.C. Quintet Meets Visitors at Pavilion Tonight in First Game of Final Series

Trojan basketballers will commence to end their hoop season tonight in the U.S.C. pavilion, meeting the Arizona Wildcats in the first tilt of the two-game series. The affair tomorrow night will wind up the court schedule for the local talent.

The contest is scheduled to start tomorrow night starting at 8 o'clock, wherein the Trojan from will meet Bakerfield High School. Tonight's line-ups:

While the conference season for the locals has not been singularly successful, games with outside schools and teams have fallen into the net of the Trojans, and it is hoped by one and all concerned that this will continue until tomorrow night.

Lee Turner, Trojan mentor, will present his usual line-up. This comprises Kenny Boyer and Harold Thomas as forwards, Red McHaffie at center, and Gene Dorsey and Manuel Laraneta as guards.

Coach Fred Emke is bringing ten players from the Wildcat situation, and is due to arrive this morning. The teams have played four games in the last two years, the locals taking all of them. In 1932 the Trojans won 22-13 and 21-25. Last year the Turners collected 22-16 and 22-18.

There will be a preliminary game tomorrow night starting at 8 o'clock, wherein the Trojan from will meet Bakerfield High School. Tonight's line-ups:

Pacific Coast Title-holders to Vie for Laurels

Lillie May Bowmer Favored in 100-Yard Dash

The swimming elite of Southern California will participate in the tankfest in the Venice Plunge, which will be the girls' 100-yard dash, and the boys' 50-yard dash.

That the event will be a fast one is assured in the fact that the Pacific Coast 50 and 100-yard dash champs, respectively, Reginald Harrison and Philip Danabenspeck of Venice are entered. This pair, however, will not have all the fun to themselves, as Lee Jarvis of Hollywood Athletic Club, and George Leach of Los Angeles High, have covetous eyes on the S.F.A. crown.

The "biggest" event of the program, from the point of entries, will be the girls' 100-yard dash, in which eleven of Southern California's fastest have been pitted.

Bob Bides of Hollywood and Belle Kendall of Pasadena, will try to stave off the powerful strokes of the Venice Plungers, and Bill Elliott will contend unattached.

Complete entries:  
50-Yard Free-Style, S.F.A. championship: Lee Jarvis, Fred (H.A.S.) Jones, Bob Bides, Harry (H.A.S.) Jones, Belle Kendall, Phil (H.A.S.) Jones, Bill Elliott, Reginald Harrison, Philip Danabenspeck, Lee Jarvis, Fred (H.A.S.) Jones, Bob Bides, Harry (H.A.S.) Jones, Belle Kendall, Phil (H.A.S.) Jones, Bill Elliott, Reginald Harrison, Philip Danabenspeck.

Another meet, which is causing a bit of interest is the 25-yard dash. Six entries have been made for this number. Bob Bides of Hollywood and Belle Kendall of Pasadena, will try to stave off the powerful strokes of the Venice Plungers, and Bill Elliott will contend unattached.

## OBSERVATIONS

BY THE INNOCENT BYSTANDER, BILL HENRY

WE RISE to recommend a nice way to spend tomorrow afternoon, namely, by attending the U. S. C. vs. Occidental track meet which officially opens the local track and field season.

It takes place at the Coliseum and, while it is pretty certain to be rather one-sided in favor of the galloping Trojans, it is equally certain to be interesting.

Dean Cromwell, one of the strongest track men that has represented U.S.C. in a dozen years, while Joe Pipal, coach of Occidental, has his customary strong aggregation.

While neither team is in anything approaching top-notch condition, the Trojans have an advantage in the matter of condition to rob the festivities of their competitive interest.

It ought to be an extremely interesting affair.

It isn't every day in the week that you can step out to a nice comfortable seat from which you can view every event without jumping to your feet, and see national and international champions performing.

On the Trojan team are the winners of the shot, discus and pole vault at the most recent Olympic games, and the holders of the world's record in the 100-yard dash.

The "Unholy Three" first became famous as a moving picture, but it is likely to be perpetuated in the person of the Trojans. The full story of the case was communicated at once to Harvard and Princeton, with apologies and deep regrets of Yale, Prof. Nettleton said.

Prof. George H. Nettleton, chairman of the board of control of the Yale Athletic Association, announced today the disqualification of Hudson from all intercollegiate contests for 1933-34. The full story of the case was communicated at once to Harvard and Princeton, with apologies and deep regrets of Yale, Prof. Nettleton said.

The Palms de Glace sextet strengthened its hold on the Commercial Ice Hockey League lead by smothering the Culver 100 Per Cent Club squad, 7 goals to 2, in a match played last night before a packed house at the Palms de Glace.

Herrick, who starred for the Culver team, put his team out in front with a goal in the first period, but the Palms players got started in the second frame and were never headed thereafter. Huffman and Wilson featured for the victors.

We do rise to remark that Mr. Hudkins is improving right along and is one of the few scrappers in these parts who shows improvement in nearly every fight. A year ago he was nothing but a wild slugger. Now he is boxing with surprising skill and using his head to much better advantage. He is as strong as a bull, and his punches would kill anyone else, keeps forcing the fighting all the time in every round, and could probably beat any fighter in the world. The fight with O'Brien was very rough and exciting in spots, but in other spots was rather dull.

KOTSONAROS AND GOBAR TO CLASH

Unable to get Joe Stecher for his next card at the Olympic Auditorium, March 1, Lou Daro stepped out yesterday and matched George Kotsonaros with Prince Jaridra Gohar. One of the sacred wrestlers of India, for a two-fall, two-hour limit match.

Gobar, a graduate of the ancient college of wrestlers in Calcutta, made his last appearance in Los Angeles last August when he lost in a torrid match to Champion Joe Beecher, but had always claimed that the long ride from Vancouver to Los Angeles just before the contest interfered with his condition and that Stecher was given a good break by getting him out of condition.

HUDSON INELIGIBLE FOR YALE CONTESTS

(BY A. P. NIGHT WIRE) NEW HAVEN (Ct.) Feb. 18.—

A. E. Hudson, who rowed at No. 4 on Yale's winning varsity crew last year, was ineligible under a provision of the Harvard-Yale-Princeton agreement on account of his previous loss of class rating in June, 1934. It has recently developed that Hudson was ineligible.

Prof. George H. Nettleton, chairman of the board of control of the Yale Athletic Association, announced today the disqualification of Hudson from all intercollegiate contests for 1933-34. The full story of the case was communicated at once to Harvard and Princeton, with apologies and deep regrets of Yale, Prof. Nettleton said.

AUTO RACING CARD BILLED FOR ASCOT

The program of automobile racing and "thrill stunts" originally planned by Ward Wing, Los Angeles promoter, for Sunday, the 21st inst., will be held at Ascot speedway, Sunday, the 28th inst., according to a definite announcement made by Wing today. The postponement of the program was made necessary because of the conflict in dates with the auto races scheduled for Banning, Cal., Wing declared.

JACKSON REGAINS HORSESHOE TITLE

(BY A. P. NIGHT WIRE) ST. PETERSBURG (Fla.) Feb. 18.—Frank Jackson, Kellerton, Iowa, today regained the horseshoe-pitching championship of the world when he defeated Orren Moesman, Eldora (Iowa), titleholder for two years, in two out of three games at the play-off here.

Four thousand persons saw the play-off. Jackson lost the crown in 1919 after having held it for ten consecutive years. He began pitching horseshoes in 1908.

MRS. WILLIAMS WINS FLORIDA GOLF PLAY

(BY A. P. NIGHT WIRE) HOLLYWOOD (Fla.) Feb. 18.—Mrs. W. L. Williams of St. Louis, won the women's golf tournament here today over a field of twenty-two entrants. Mrs. Williams, Mrs. Thomas Farmer of Fort Lauderdale, Fla., and Miss Fay Brigham of Ontario, Can., tied for first place but in the play-off Mrs. Williams won.

FRANKIE GRANDETTO KNOCKS OUT SUESS

Frankie Grandetto knocked out Nate Suss, New York flyweight, in the third round of the main event at the Pasadena Armory last night. The victory is quite a feather in Grandetto's cap, for Suss had beaten such good boys as Lew Felt and Ad Pettigill in the East before coming to the Coast. Grandetto has won twice in the third round before stopping his man for the ten count.

actions of the legislative branch, Senator Cummins insisted that if it was concluded that an executive officer had failed to perform his duty, it seemed to be to be found in the constitutional right of impeachment.

Presenting his case to the Senate in an address of nearly four hours, Senator Cummins stated that he was satisfied from reports of Federal Trade Commission agents to show that they had found a general conspiracy to defraud the public by the Aluminum Company of America.

After the Monrises Senator had finished his address, the Senate adjourned until Monday, when the fight will be renewed. A two days' recess is given, it is expected, to permit those opposed to a Senate investigation to prepare for the fray.

# San Bernardino Again Hostess as National Orange Show Opens

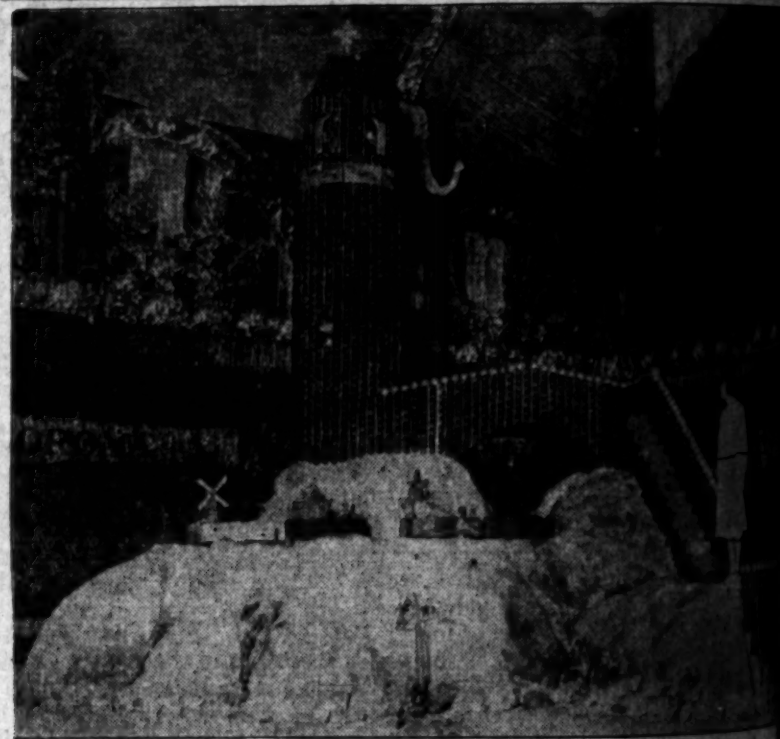

SAN BERNARDINO, orange capital of the world, for the next ten days is the official hostess of Southern California, the sixteenth annual National Orange Show having opened its gates to an eager public yesterday at the little city in the shadows of the San Bernardino Mountains. More elaborate, more spectacular, more colorful than ever, this year's show promises to attract a greater attendance than ever before and leave a more lasting impression of the majesty of King Citrus and his court. The photos reproduced below were taken by Times staff photographers a few minutes before the official opening of the show.

The Mexicans Cross the Rio Grande.

THE REFUSAL OF MEXICO TO TREAT WITH SLIDELL, OUR ENVOY, LED PRESIDENT POLK TO ORDER GENERAL TAYLOR TO MARCH FROM CORPUS CHRISTI TO THE RIO GRANDE.

TAYLOR OBEYED PROMPTLY AND ON REACHING THE RIO GRANDE BUILT FORT BROWN ON THE NORTH BANK NEAR THE GULF. GENERAL AMPUDIA WITH A LARGE MEXICAN FORCE WAS ACROSS THE RIVER AT MATAMORAS. AMPUDIA DEMANDED THAT THE AMERICAN TROOPS WITHDRAW TO THE NUECES RIVER.

TAYLOR REFUSED TO RETREAT AND AMPUDIA CROSSED THE RIO GRANDE WITH A LARGE BODY OF MEXICAN TROOPS. HOSTILITIES BEGAN ON APRIL 24, 1846, WHEN THIS FORCE AMBUSHED A SMALL SCOUTING PARTY OF AMERICANS, KILLING OR CAPTURING THEM ALL.

WHEN NEWS OF THE BATTLE OF PALO ALTO REACHED THE PRESIDENT HE SENT A MESSAGE TO CONGRESS URGING A DECLARATION OF WAR. "MEXICO HAS SHED AMERICAN BLOOD," HE SAID. "THE ACT OF MEXICO IS AN ACT OF WAR."

These daily history strips make a unique pictorial history of America.

Hundreds are clipping them daily and pasting them in albums.

# Just a Personal Letter to My Friends and Their Friends:

OLE HANSON

**A**S MOST OF YOU KNOW, San Clemente, The Spanish Village, was placed on the market some two months ago, just before the holidays. For two years I had searched diligently for an ideal townsite on the Ocean in Southern California; for two years I had spent practically all my time trying to find a tract of land unspoiled and undefiled, where a real Spanish Village could be built; where there was rail and motor transportation; where there was a sandy beach; where the climate was ideal and where I could build something of which California could be proud and which would become more beautiful as the years rolled by.

I wanted to buy the land at the right price; I wanted it to be real land, not sand dunes; I wanted a tract which would slope from the rolling hills to the sea with all modern conveniences and I wanted it far enough away from Los Angeles so that it could be made a real village, not just a suburb that people use as a bedroom, spending their money and their lives in the city proper.

For years on my frequent trips to San Diego, I had noted a great area of vacant land, rolling beautifully from the high hills to the sea, 6 miles south of San Juan Capistrano. The main line of the Santa Fe Railroad traversed it, the paved State Highway (El Camino Real) ran its entire length; frequent bus and train service served it; electric and telephone lines crossed it and yet this tract of land, unique in its beauty, lay undisturbed and unused, asleep in the sun.

Some months ago I secured this 2000 acres of land, with five miles of fine sandy beach as its west front, and with five miles of concrete pavement across its eastern border.

I agreed to pay \$500 per acre for this land with water; The Hellman Commercial Trust and Savings Bank carry the title, and issue all contracts and deeds; the Orange County Title Company guarantee the title.

The previous owners needed money to pay their obligations and save other parcels of land; hence I secured the land at a price far below its real value.

This gave me the opportunity of realizing my dream, and materializing my vision. I did not want to build a Rolls Royce city; too few people could afford it; I absolutely abhor the second-hand Ford shack towns that line the beach.

I wanted land so cheap, so beautiful, so easy of access that I could place prices on the same (and make a profit) whereby anyone almost who desired to participate could do so at a small expense; I did not just want to sell some lots; I wanted to build a real place, where there were flowers and shrubs and trees; where the roads conformed to the lay of the land; where every home would be a thing of beauty, redolent of Old California's Spanish days when the cowed monks wended their way from Mission to Mission on their errand of Christianity and civilization.

I therefore secured the services of Horace Taylor, pioneer engineer, to lay out the ground, and of J. Wilmer Hershey to supervise the architecture which must be of Spanish type.

There are no price restrictions in our contract but every structure, be it the charming little week-end place with roses twining over the door or the palatial residences of permanent residents, *must be of Spanish type* and all plans must be submitted to our Architectural Board as to exterior before one can build.

Most folks at first thought building a village along this plan would fail; many of my backers and associates were amazed; but I am very happy today to be able to announce that:

Over three hundred and sixty thousand dollars' worth of property has been sold despite the holidays and that 60% have signified their intention of immediate building.

I agree to build a beautiful Club House, place same on fifteen parcels of land, add 1000 feet of our best beach and present it to the Community (Lot Owners.)

Mr. Clifford C. C. Tatum (now on a trip around the world) and myself are now building a wonderful restaurant and Administration Building on the State Highway. It has an open air patio, open air porches, fireplaces, fine dance floor in the dining-room and will be, we believe, the finest restaurant on the El Camino Real.

Despite the rain (which, by the way, did no damage at San Clemente) about a dozen Spanish type homes are under construction.

Mr. Ed Fowler, with his Pasadena Associates, are taking an entire tract purely for community building; the street work is well under way; our new reservoir is almost finished; and all in all we are very happy and satisfied.

Our prices range from \$500 and up for a homesite and are 'way below even the shack-town prices of beautiful districts where there were no restrictions worth while. Terms are only 1-5 cash.

Friends, I want you to see San Clemente. Get in your car and drive through San Juan Capistrano to San Clemente—just six miles beyond. I am there Tuesdays, Thursdays, Saturdays and Sundays. If you wish more information cut out the coupon at once and mail it to me. I will send you the literature more fully describing my plans.

We will gladly send private car to pick you up and convey you to San Clemente. There will be no obligation of any kind. We have one hundred real men and women in our organization who will take care of you as my guests. We offer San Clemente On The Square. Our sale so far has been phenomenal. It just goes to show that if you have something real, where the customer really gets a run for his money, that the public know it and buy. Now cut out this coupon. Mail it to me. Don't delay. Don't hesitate. I want you to see San Clemente. I want you to see it now. If you love beauty; if you love the ocean; if you appreciate the artistic blending of old Spanish homes, nestling midst the green hills with the California sky above and the Ocean in front, you will not regret the trip. Cut out the coupon now. Mail it at once.

*N.B.—I want to thank all the folks who have made the trip and all the folks who have purchased and all the Clubs and individuals who have written in with suggestions. We are building something for California, a five-mile beach community without shacks, without hurdy gurdys, without hot dog stands, without a defiling or unbeautiful thing. Why not help?*

Sincerely Yours,

*Ole Hanson*

Detroit Party Sleds Broken  
in Three-Mile Trial  
Forced to Return to Post  
After Bucking Trail

Expedition Will Use River in  
Attempt Today

(Exclusive Dispatch)

(Alaska News)

CAMPBELL'S TRADING POST

(Tanana River, Alaska) Feb. 15.

The motor train of the De-

troit Arctic expedition is lined

up on the Tanana River here

tonight, ready for an early start

tomorrow morning for Tovalana,

twenty miles down the river, on

way to Point Barrow river, on

supplies for the Wilkins trans-

polar plane.

Today was spent in a fruitless

attempt to negotiate the Overland

trail from here to Tovalana, an

attempt which resulted in dam-

age to the sleds and the snow

after the return to the river ice

miles of the rough ground

imagineable and then returned

crashing through brush

and bumpy "niggerheads,"

frozen clumps of tundra grass

and another main trail, which

was repaired on the trail and

second motor had a cracked cas-

ing.

A. Malcolm Smith, leader of the

party, ordered the return to the

river in order to save gasoline

and the equipment. One of the

sleds was broken on route and

there are now nine in the party

which has done annually for

three years.

Built as a Dundee whaler in

Scotland fifty-two years ago, she

was given America as a gift

to the Greeley expedition in

1855, and has been plowing

through the ice-infested waters

yearly since. Other craft melt

but the Bear always survives,

through with her "troops" her

medicine and sugar and news to

the outside world.

The new Bear is to be an auxil-

iary, carrying a 216-foot long,

with a 30-horsepower motor, and

single Diesel-electric

motor, and a cruising

radius of 10,000 miles. She also

will be able to sail with her

two part and part wood, due to

the prejudice of authorities against

an all-steel ship for the Arctic.

"The Oldest Street Improvement Bond House in California"

Increased Property Values

California Street Bonds are issued for installation of ornamental lighting, paving and general street improvements, all of which directly increase the value of the security behind these issues. In many cases, the property is worth over 100 times the amount of the bonds, which are a direct lien ranking prior to all mortgages present or future.

QUIRK BROTHERS Street Bonds yield 6% to 7% TAX FREE.

### SCIENTIST SEES NEW UNIVERSES

Our System One of Million, Telescope Reveals  
Myriad Nebulae Hint Nothing of Earth's Destiny

By a "Times" Staff Correspondent  
PARADISE, Feb. 13.—This so-called universe of ours—the billion or more stars which dwell in the same system as the earth and sun—is only one of at least a million comparable systems extending on and on into incalculable space, according to the latest investigations made by Dr. Edwin P. Hubble of the Mt. Wilson Observatory.

What has always been called the universe is not accurately so termed, because it is only one of a myriad star systems. Our universe is properly the Galactic system and the other systems are scientifically known as non-Galactic nebulae. Dr. Hubble explained tonight in a lecture at the California Institute of Technology.

Dr. Hubble's studies of six of the brightest of these other universes or non-Galactic nebulae, show that the nearest is at a distance in the order of 700,000 light years.

Photographs taken with the aid of the world's most powerful telescopes at Mt. Wilson show that the nebulae are undergoing a process of evolution from solid stars into a condition of separate stars and orbits, as is the system of which the earth is a tiny part.

OUR UNIVERSE MATURER  
Classification of the various stages of progress shown by these non-Galactic nebulae demonstrates that the Galactic system—our universe—is in an extremely mature state of evolution, and though strictly comparable to the others, is the latest of the systems measured so far.

Scientists and astronomers have long suspected that there are systems outside the Galactic system, and have speculated upon their nature. Dr. Hubble stated, but his work confirms the first definite conclusions based on experimental demonstration.

His first announcement, describing the nearest of these non-Galactic nebulae will be followed by further descriptions of his findings, relating to others. The photographic plates of the Mt. Wilson telescopes reveal a million of these universes, he declared. Ordinarily none is visible to the naked eye.

None has been found so far which is in a more mature state of evolution than our own Galactic system, so Dr. Hubble cannot predict what will become of the earth or what man's destiny is. If a further stage of evolution should be discovered in a neighbor system, however, then such a prediction could be made with ample justification.

However great Dr. Hubble's discoveries and the brought him the annual prize of the National Academy for the Advancement of Science—the mind of man is still far from a solution of the infinite for nebulae after nebulae stretch on out beyond the range of the great telescopes in every direction.

DESTINY SHALED  
Moreover, all stages of the evolution of a star system such as ours seem apparent except the beginning and the end. No one knows how nebulae get started, and while Dr. Hubble's investigations point out the steps in their

### GROWTH SHOWN BY DIRECTORY

Population of Los Angeles Placed at 1,265,307, Gain of 69,963 Over Last Year on Basis of Increase in Names Listed

The population of the City of Los Angeles, in its upward climb, has reached the figure of 1,265,307. This was the official estimate made yesterday by the statistical bureau of the Los Angeles City Directory Company, coincident with the issuance of the 1926 City Directory. Figures based on the 1925 directory gave the city a population of 1,195,344. The figure is obtained by a mathematical formula regarded as a conservative standard throughout the United States. The basis for the estimate is the number of names

A total of 562,359 names is listed in the 1926 directory. To reach a figure representing the actual population of the city, taking into consideration the households and children not listed in the directory, the sum of 562,359 is multiplied by 2.25.

INCREASE OF 69,963  
Last year this formula gave an estimated population for Los Angeles of 1,195,344. There were only 531,354 names listed in the directory last year. An increase of 31,005 listed names this year gives an increase in the estimated actual population of 69,963.

Officials of the statistical department of the directory company insist that their formula of computing the actual population is accepted as conservative by all statistical experts and is in general use in metropolitan centers throughout the country.

The system used by the directory company in obtaining the list of names for the directory is regarded as the most thorough employed in the country. Through an elaborate check system, the chances for error are minimized.

THE CANVASSERS  
First, a canvass is made of the business institutions of the city; then a canvass is made of the residential districts. By this means the names of a majority of residents of the city are obtained twice. When the names are obtained, the business and residential lists are checked. By this means the names are obtained twice. When the names are obtained, the business and residential lists are checked.

### ORANGE SHOW MOTIF EXCELS

First Day Attendance May Reach 10,000  
Fifty Million Fruit Used to Decorate Hall

BY FLOYD HEALEY  
"Times" Staff Correspondent  
SAN BERNARDINO, Feb. 18.—There's an old fable handed down through the orange belt that a Hindu prince once upon a time gave a week-end party and invited a host of epicures to sample a new delicacy out of his garden. The delicacy, so the fable goes, was an orange.

The sixteenth annual San Bernardino National Orange Show of today opened its doors here tonight with that fable as its motif. If ethereal shades retain any of the human emotions the shade of the first East Indian orange-juice drinker should be proud of itself.

H. C. McAllister, president of the show, gave assurance that this year's exhibit is without a doubt the best that has ever been presented. Some one who has been doing the thing since the Hindu gave his house party, but the strange part of it is that he makes one believe it. His orange show is a thing of beauty.

GLIMMER OF GOLD  
Something like \$6,000,000 orange, lemon, grapefruit, kumquats and all the other citrus products—or enough if stretched out end to end to reach from here to some other place—are bowed in a delicately beautiful setting in which the East Indian atmosphere predominates. They are ranged on racks, towers, girders and in every conceivable fashion. The permanent exhibit is a thing of beauty.

When the lights were turned up on the mammoth display the show became an undulating glimmer of gold much like the hot metal as it looks coming from the furnace. In the effort expended the gorgeousness of the exhibits and the sheer beauty of their appearance will surpass all previous orange show history as the acme of endeavor to this time.

Not thousands of people are expected to pass through the wicket before the gates are closed for the night. If that figure is reached it will surpass all previous orange show attendance throngs. Last year 250,000 visitors attended. This year 250,000 visitors attended. This year 250,000 visitors attended.

GOVERNOR SPEAKS  
An informal inspection was granted the public starting at 1:30 o'clock, but the show was officially opened tonight with exercises at which Gov. Richardson was the speaker.

"Not being in politics, not being a candidate for any office," the Governor said, as he stood before the throng, "I can speak freely about State government."

Every citizen, he said, should be interested in taxation and economy of government. Inasmuch, he declared, as the franchise laws of corporations form the greatest source of revenue, every time an individual uses a public utility that person indirectly helps pay the expenses of government.

Every citizen, he said, should be interested in the preservation of law and order and should be particularly interested in seeing that criminals are tried swiftly. It means the safeguarding of the homes of all citizens," he declared.

Gov. Richardson spoke concerning the Santa Fe Trail, saying that the Santa Fe Trail is a thing of beauty. It is a thing of beauty. It is a thing of beauty. It is a thing of beauty.

## EXTRACTS FROM DIRECTORS' REPORT

Your Directors present the fifty-fifth annual report for your approval. The Company's statements have for years reflected its constantly increasing expansion and prosperity, but this year marks an epoch in the life of the organization. It has now passed the Billion Dollars mark in assurance in force, the amount after deducting re-assurances being \$1,021,097,000.

Applications for new assurances have been the largest in our history, aggregating \$220,534,526.67. The new policies paid-for numbered 57,944, for the amount of \$193,477,000, after deducting amounts re-assured. The new business for the year exceeds the total amount of business the Company had in force only thirteen years ago.

The gratifying evidences of growth and expansion (exhibited in the accompanying statement) are paralleled in regard to strength and profitability. Notwithstanding the general decline in interest rates, the Company has been able not merely to continue, but to slightly increase its record in this connection, the rate earned during the year on the mean invested assets having been 6.41 per cent.

Several factors have contributed to produce this result, not the least

important being an increase in the dividends paid by some of the corporations in which the Company has substantial stock holdings.

Even more important than interest yield has been the advance in the market value of our securities. For many years we have specialized in long term bonds and preferred and common stocks of outstanding corporations, both in Canada and in the United States. We are now reaping the rewards of this policy. On actual sales of municipal debentures and other securities which had risen to high premiums, we have realized a net profit of \$2,215,772.41, while the increase in the value of securities still held has been much greater.

The profits earned by the Company during the year, based on the increase in the valuation of our securities as made by the government authorities, has been \$21,666,284.00. We have not thought it wise, however, to take credit for this entire amount, and . . . have made a deduction of \$3,000,000 from the official valuation placed on our assets. We have, moreover, added \$2,500,000 to our Contingency Accounts, bringing these up to a total of \$10,000,000.

Following the practice of recent years, we have written off \$750,000 from the book value of our Head Office and Branch Buildings, and other real estate.

We have also, by setting aside an additional \$350,000, further strengthened the special reserve to provide for possible greater longevity among annuitants, bringing the total amount under this heading up to \$1,100,000 in excess of government requirements.

During the year we have paid or allotted \$7,662,784.35 as profits to our policyholders. After deducting this sum, and the accretions to shareholders' account, and making the foregoing heavy allocations, we have yet been able to add \$6,532,642.75 to our undivided profits bringing the total surplus over all liabilities, Contingency Accounts and Capital up to \$28,640,000.69.

For the sixth consecutive year we are able to announce an increase in the scale of profits to be distributed to our policyholders in the ensuing year.

To provide for the expansion of our business, it has been necessary to make an extension of the Head Office building, which has now been completed, and will be formally opened on the day of our Annual Meeting. The building is devoted exclusively to the use of the Company, but it is already evident that we must, at once provide for further enlargement.

# What Real Oven- baking means

Only when beans are really oven-baked can the label say "baked." So, look for "oven-baked" on the label.

Heinz beans are oven-baked. That's what develops the taste in them—the taste that brings the plates back for more.

They're oven-baked—that's what keeps the nutrition in and makes them so easy to digest.

They're oven-baked—that's why the words "oven-baked" appear on the label.

One of the beautifully arranged affairs of the day will be the tea with which Mrs. T. Dwight Brigidon is entertaining this afternoon at her home, 1119 Grand View street, in honor of Mrs. Eugene N. Bender, who, with Mr. Bender, is visiting her parents, Mr. and Mrs. William Lyman Stewart. Mrs. Bender was before her marriage a year ago, Miss Sarah Arnold.

The house will be a bower of fragrant Japanese peach blossoms and trailing ferns, and the hostess will be assisted by Mrs. William Lyman Stewart, Mrs. Camille Martinelli, Mrs. Innes Kinney, Mrs. Harold Walter Butler, Mrs. Agnes W. Martin, Miss Fanny Whitaker, Mrs. Albert Crank, Mrs. R. M. Galbreth, Miss Betty Galbreth, Miss Helen Galbreth, Mrs. Cortes W. Shelton and Mrs. Lucius P. Green.

Mr. and Mrs. Bender have been in Southern California on an extended visit, being for the past three weeks at Palm Springs, and are planning to remain in our midst for another month before returning to their Canadian home.

**Church Ceremony**  
The marriage of Miss Emily L. Carlson, daughter of the late Mr. and Mrs. C. A. Carlson of 1216

Edgemont street, Hollywood, to

Halfron M. Larsen was solemnized last evening in the University Baptist Church of Hollywood, the ceremony taking place at 8 o'clock. Rev. Ernest A. Main officiating.

The church was beautifully decorated with palms, potted plants and ferns was erected over the bride party, the bride being given in marriage by her brother, Elmer H. Carlson.

The wedding gown was of white satin crepe, the veil of tulle being held in place by sprays of orange blossoms, and she carried an arm bouquet of white roses and lilies of the valley. Miss Charity Howell assisted as maid of honor in a gown of apricot georgette and carried pink roses and lilies of the valley. The bridesmaids were Miss Maguire McLaughlin of Chowchilla, Cal., niece of the bride, and Miss Virginia Carlson, frocked in lavender and blue, and carried pink and lavender sweet peas.

Little Margaret Jane Huntley, the dainty flower girl, scattered rose petals in the path of the bride, while Mildred Larsen, carrying an arm basket filled with flowers, preceded the bride to the altar, and Frederick Smith carried the rings.

Z. Earl Mesker served Mr. Larsen as best man, while other attendants were Kenneth L. Connor and Clarence Haggen, and the ushers were Miss Marian Jacobs, Miss Margaret Croft, Ronald De Long and William Evans.

A wedding supper and reception followed the ceremony for the bride party and relatives at the home of the bride's brother, Elmer Carlson, 1819 Edgemont street, where the decorations carried out the same color scheme as at the church.

After a brief honeymoon Mr. and Mrs. Larsen will be at home at 1216 Edgemont street, Hollywood.

Women farmers in Pennsylvania now number more than 10,000.

DAMAGES ASKED  
IN SLAYING CASEKarl Kaufmann's Widow  
Sues SanatoriumAsserts Negligence in Escape  
of W. S. HolbertDemented Soldier Shot and  
Killed ManufacturerSANTA ANA, Feb. 18.—The  
widow of Karl Kaufmann, Santa  
Ana manufacturer, today filed  
a suit for \$100,000 damages, filed  
today in Superior Court by Mrs.  
Gladys Kaufmann, widow of the  
deceased, on behalf of herself and  
her three children.The damage action was brought  
against the Compton Sanatorium  
and its owners, Dr. G. E. Myers of  
Compton, and Dr. Frank C. Bishop  
of the Rives-Strong Building, Los  
Angeles.Asserted carelessness and negli-  
gence of the sanatorium officials in  
permitting Holbert to escape, and  
then making no effort to find him  
or effect his return to the sanato-  
rium, is charged against the de-  
fendants.The complaint asserts that, under the conditions of Hol-  
bert's parole to the Compton Sanato-  
rium from the State Insane Hospi-  
tal at Norwalk, where he was pre-  
viously confined, the Compton  
sanatorium assumed responsibility  
for his safekeeping.Notwithstanding this, and the  
fact that Holbert's violent ten-  
dencies were well known, no steps  
were taken to restrain him, ac-  
cording to the damage complaint.The sum of \$100,000 is demanded  
by the bereaved family for the  
loss of the society, comfort and  
protection of the husband and  
father, who was brutally shot  
and beaten to death when he en-  
countered Holbert on East First  
street, Santa Ana, near the Kauf-  
mann Spot Light Factory last De-  
cember 17.Holbert had then been away  
from the sanatorium for about two  
months, having escaped in Novem-  
ber, 1932.He had been employed on the  
Oscar Rosenbaum ranch at San  
Juan Capistrano, and, when one of  
his periodic attacks of violence  
came upon him, he walked to  
Santa Ana, purchased a rifle, and  
started back to the Rosenbaum  
ranch, intending to avenge some  
fancied wrong.SHOT AND CLUBBED  
Kaufmann, driving a small car,  
happened to meet the demented  
man, Holbert, without warning,  
went shot after shot into the man-  
ufacturer's body, and followed this  
by running upon the wounded man  
and, with rifle butt, finishing the  
bloody work.Arrived by City Marshal Rog-  
ers a few moments later, Holbert  
was charged with murder. His  
trial turned into an insanity hear-  
ing, and he was found to be in-  
sane. The court ordered him com-  
mitted to Patton. Kaufmann, his  
victim, was 29 years of age.The Kaufmann family is stated in  
the damage complaint, was living  
at Balboa at the time of the trag-  
edy. Holbert, it is stated, was  
A. Stoker, had not been notified of  
the escape from the Compton  
Sanatorium and was not aware of  
the fact when he read in the  
newspapers an account of Kauf-  
mann's slaying.BACK PLAN FOR NEW  
PASADENA DAM SITEBy a "Times" Staff Correspondent  
PASADENA, Feb. 18.—A re-  
sult supporting the proposal  
made by this city to the County  
Board of Supervisors favoring the  
erection of a flood-control dam at  
the Granite Dike site in the San  
Gabriel Canyon was passed unani-  
mously at a meeting of the  
Pasadena Engineers' Society. The  
Granite Dike site, which is offered  
as a substitute for the proposed  
county site at the forks of the can-  
yon, would store more water, and  
could be built at a saving of about  
\$1,000,000 over the present pro-  
ject, according to the engineers.  
Moreover, Pasadena and the coun-  
ty could combine in the use of the  
Granite Dike dam, overcoming  
present conflicting plans.

## REDLANDS IN WATER SCARE

Investigators Find Level Fifty-six Feet Lower Than  
Two Years Ago; Bond Election UrgedREDLANDS, Feb. 18.—A very insistent warning was sounded to  
the people of Redlands today when the water committee comprised of  
George F. Humphrey, J. J. Frendgenast and Lyman M. Kim made a  
report to the City Trustees. In the report they stated that the water  
in the municipal wells is fifty-six feet lower than it was two years  
ago and urged the city to call for a bond election in April for \$250,000  
to purchase an additional supply of water for future needs.The committee also recommended  
that the City Trustees announce  
their intention to bring about con-  
ditions that will enable the munici-  
pality to supply water to the va-  
rious mutual companies in case of  
a shortage in their supplies. It  
was decided that orange growers  
should be protected during dry sea-  
sons, and that the city could sup-  
ply irrigation water in emergencies  
at reasonable rates.Another recommendation made  
by the committee of three was to  
the effect that the city officials  
should present a bill to the city  
historical character of the Mill Creek  
Zanja. It was suggested also that  
the present Sylvan Park could be  
improved when the city actually  
owns the water which now flows in  
the Zanja and which then could  
be diverted through the park.If the Zanja water can be pur-  
chased, it is contended that the  
water could be diverted into a sup-OVERALLS OUST

employment of Alfredo Tommasino  
and his band of twenty musicians to  
replace at \$2000 a month the  
defunct municipal band has not met  
the approval of all Santa Monica  
citizens, according to a group appearing in protest before the City  
Commissioners. Thomas E. West, one of the protesters, denounced  
the employment of an Italian band. Others asserted that there are  
many American-born musicians, including American Legion ex-service  
men, who would make up a splendid band.Tommasino, according to some  
musical authorities here, is re-  
garded as an exceptionally fine  
leader, and his present arrange-  
ment with the city saves \$200 a  
month, compared with the old  
band. Several of the Italian  
musicians were brought  
here believing they would have  
steady employment, it is pointed  
out, and these musicians are said to  
have several union affiliations in  
order to play where and when the  
municipality directed.The protesters, according to the Tommasino  
employment were citizens who  
are strongly in favor of employing  
American musicians.With a municipal band ready to  
perform, Santa Monica is planning  
to send musical representation to  
the National Orange Show next

procuring petitions for annexation  
of the district has been going on  
because residents in the district were  
slow in registering for this year,  
and to date there are enough regis-  
tered voters to make the circula-  
tion of a petition again feasible. It  
was reported that a man has been  
sent to the district to collect regis-

face of the Palisades Park bluff  
was started by the City Commis-  
sioners here today ordering con-  
demnation proceedings under the  
Public Parks and Playgrounds Act  
of 1918. The boundaries of the  
property to which the city of Santa  
Monica seeks title are Montana  
avenue on the north, the Pacific  
Canyon line on the east, the west  
Colorado avenue on the south,  
and the bluff edge on the west.  
The city is seeking title to the  
face of the bluff, which is the site  
of the "Montana Hotel," site of the  
proposed Gables Club.If the Matton Improvement Act  
is held valid through a decision ex-  
pected from a case now in the  
Supreme Court, it may be invoked;  
but immediate steps will be taken  
under the Parks and Playgrounds  
Act. Eventual addition of the Pa-

## ITALIAN BAND PROTESTED

Group of Santa Monicans Urge City Commissioners to  
Consider Musicians of Ex-Service MenBy a "Times" Staff Correspondent  
SANTA MONICA, Feb. 18.—The  
employment of Alfredo Tommasino  
and his band of twenty musicians to  
replace at \$2000 a month the  
defunct municipal band has not met  
the approval of all Santa Monica  
citizens, according to a group appearing in protest before the City  
Commissioners. Thomas E. West, one of the protesters, denounced  
the employment of an Italian band. Others asserted that there are  
many American-born musicians, including American Legion ex-service  
men, who would make up a splendid band.Tommasino, according to some  
musical authorities here, is re-  
garded as an exceptionally fine  
leader, and his present arrange-  
ment with the city saves \$200 a  
month, compared with the old  
band. Several of the Italian  
musicians were brought  
here believing they would have  
steady employment, it is pointed  
out, and these musicians are said to  
have several union affiliations in  
order to play where and when the  
municipality directed.The protesters, according to the Tommasino  
employment were citizens who  
are strongly in favor of employing  
American musicians.With a municipal band ready to  
perform, Santa Monica is planning  
to send musical representation to  
the National Orange Show next  
week. Many Santa Monicans are  
planning to attend the show. The  
Pacific Electric has arranged spe-  
cial Bay District trains to accom-  
modate Orange Show excursionists.
